Something is wrong here!!! It is clearly in my notes and should be in Tracy's notes that we gave him until COB today to provide any material/documents he might have to support his story that the FDA ran out of money, that he stayed with Skip Kennedy Wednesday night, although Skip says he did not, and that he attended the conference on Thursday, although no one saw him and the other LEO did not. He said there was an e-mail saying the FDA ran out of money. We gave him the opportunity to produce anything that would support his story. There was no talk of another meeting. He had his meeting and a chance to reconcile his version of events with the information that came to our attention. He did not.

Tracy, please disregard my previous message about not reminding him of this. Please let him know that we closed the 10/20/11 meeting by telling him he had until COB today to provide any materials that would support his version of events such as the e-mail he said he had wherein the FDA said it ran out of money. There is no further meeting to be scheduled.

Importance: High

Who is David? Make it earlier in the day preferable today to get this over with, the stress you folks are causing me is having an impact on my work and health.

Thanks,
Russ

It's not. David isn't available this morning and I won't be in until a little later.
David and Linda are copied here. Why is 330 tomorrow bad?
